Aubin Joanes Igiraneza

Date of birth: 11/11/1997 | **Nationality:** Rwandan | **Phone number:** (+250) 790492219 (Home) | **Email address:** aubinigiraneza1@gmail.com | **LinkedIn:** Aubin Joanes Igiraneza | **Address:** Rwanda,Kigali,Gasabo, Kigali, Rwanda (Home)

ABOUT ME

Aerospace Engineer with hands-on experience in flight operations, UAV systems, and aviation safety. Skilled in data analytics, technical documentation, inspections, and operational compliance with established aviation standards. Demonstrates strong analytical skills, attention to detail, and a commitment to safety and continuous improvement in flight operations. Motivated to expand expertise in aviation quality management and compliance.

WORK EXPERIENCE

AEROSPACE ENGINEERING CONSULTANT – INKJUBEIT – 01/01/2025 – Current – KIGALI, RWANDA

- Conduct UAV ecosystem research to support Rwanda's drone industry development.
- Assist in preparing operational and compliance documentation for ecosystem partners.
- Organize workshops and community events promoting safe and efficient UAV integration.
- Support innovation and awareness of aviation standards and regulations.

FLIGHT OPERATOR – ZIPLINE – 19/02/2024 – 19/08/2024 – RWANDA

- Operated and monitored UAVs for medical and logistics missions across multiple routes.
- Performed pre-flight and post-flight inspections ensuring full compliance with aviation safety standards.
- Coordinated real-time communication with air traffic and operations teams for safe flight operations.
- Maintained flight logs and contributed to operational efficiency and safety improvement reports.

AEROSPACE ENGINEER (PART-TIME) – KIGALI ECOFLY TECHNOLOGY – 01/02/2023 – Current – KIGALI , RWANDA

- Supported the design, integration, and testing of UAV propulsion and avionics systems.
- Assisted with technical documentation and compliance alignment with RCAA and ICAO standards.
- Participated in prototype flight testing and performance analysis.
- Contributed to internal process reviews and technical reporting.

STUDENT INTERN – ERCAN INTERNATION AIRPORT – 15/07/2022 – 15/10/2022 – TYMBOU , CYPRUS

- Assisted air traffic controllers and aircraft maintenance engineers during daily operations.
- Conducted aircraft inspections in line with maintenance and safety requirements.
- Supported safety audits and maintenance documentation review.

EDUCATION AND TRAINING

29/09/2017 – 30/01/2023 Guzeryurt, Türkiye

BACHELOR OF SCIENCE IN AEROSPACE ENGINEERING Middle East Technical University

Address 99738 Kalkanli, Guzelyurt, Mersin 10, Turkey, 99738, Guzeryurt, Türkiye | **Website** https://ncc.metu.edu.tr |

Field of study Aerospace engineering

01/01/2014 – 31/10/2016 Kigali, Rwanda

HIGH SCHOOL DIPLOMA College Saint Andre

Address Kigali, Rwanda, Kigali, Rwanda | **Field of study** Mathematics, Physics and Computer Science

LANGUAGE SKILLS

Mother tongue(s): **KINYARWANDA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
FRENCH	C2	C1	C1	C1	C1
TURKISH	A1	A2	A2	A2	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Documentation | Data analysis | ANSYS workbench, ANSYS fluent | Technical Drawing (AutoCAD) | Technical drawing in Inventory 2017,CATIA V5 | computer software: Matlab,Open Rocket,STK,Python and C++ | Risk analysis | Flight Data monitoring | Team coordination

PROJECTS

03/08/2023 – 04/09/2023

Ingenzi Quadcopter Preliminary Design with Coaxial Rotors

The groundbreaking Ingenzi Quadcopter, equipped with coaxial rotors and Ingenzi technology, is set to redefine unmanned aerial vehicles. Designed for superior stability and versatility, this project explores applications from surveillance to challenging environments. Our future-ready prototype showcases innovation and adaptability.

25/09/2022 – 30/01/2023

Helicopter Preliminary Design and Analysis

Effectively designed 15-seat,double-engine Search and Rescue helicopter with the ability to transport 10 passengers and a pilot. This represented an affordable rotorcraft that would allow cheap, fast, and customized transportation throughout big cities with the help of Matlab software, compared with the ones available in the market.

NETWORKS AND MEMBERSHIPS

30/10/2017 – CURRENT Middle East Technical University Northern Cyprus Campus

Member of METU NCC Aerospace and Problem Solving Societies

06/03/2018 – 30/01/2023 Middle East Technical University Northern Cyprus Campus

Astronomy Society Member

CERTIFICATE

25/03/2026

Frontend Developer

Frontend Developer with experience building responsive and user-friendly web applications using React, JavaScript, and Tailwind CSS. Skilled in creating clean UI components, integrating APIs, and ensuring smooth performance across devices. Focused on delivering intuitive user experiences with attention to detail and modern design practices.

18/08/2025

Data Analyst

Training in data cleaning, exploratory data analysis, visualization, and reporting using Python, SQL, Power Bi and Excel, with practical experience on real-world datasets.

07/03/2024 – CURRENT

Flight Operator

- Operated and monitored UAVs for safe and timely medical deliveries.
- Conducted pre-flight checks and coordinated with ground control for airspace management.
- Troubleshot technical issues and ensured compliance with safety protocols.
- Documented flight data and contributed to improving delivery operations

03/03/2024 – CURRENT

OSHA 10 HOUR TRAINING

OSHA 10-hour training teaches basic safety and health information to entry-level workers in construction and general industry. It is part of the OSHA Outreach Training Program, which explains serious workplace hazards, workers' rights, employer responsibilities, and how to file an OSHA complaint.

2018

Aircraft Model Certificate

Designed and manufactured an Aircraft model.

2016

Active member of RED-CROSS community

23/01/2026

Backend Developer

Backend Developer with experience building RESTful APIs using Django and Django REST Framework. Skilled in designing database models, implementing authentication systems, and handling server-side logic. Focused on writing clean, efficient code and ensuring reliable integration with frontend applications.
